**Commonwealth Automobile Reinsurers  
Commercial Automobile Committee – Market Issues  
Status as of July 8, 2021**

**IN PROCESS**

**I. Issue: Non-Ownership Liability Coverage**

**Category:** Rating Issue

**Priority:** High

**Committee Focus:** Improvement of underwriting results – non-ownership liability classifications

**Committee Action to Date:** The Commercial Automobile Committee was informed that this issue has been identified as an item for the rate study being undertaken by CAR staff and the Joint Actuarial Commercial Lines Committee (JACLC).

**Status:** The JACLC will convene later this summer to consider alternative rating methods in preparation for a filing this fall.

---

**II. Issue: Vehicle Operations Outside of Massachusetts**

**Category:** Rating Issue

**Priority:** High

**Committee Focus:** Discussion has taken place as to whether a risk should be required to have vehicle operations in Massachusetts in order to be eligible for placement in the residual market.

**Committee Action to Date:** The Commercial Automobile Committee was informed that this issue has been identified as an item for the rate study being undertaken by CAR staff and the JACLC.

**Status:** With CAR's July 1, 2021 rate filing withdrawn, the JACLC will convene later this summer to consider alternative rating methods to address operations outside of Massachusetts in preparation for a filing this fall.

---

**III. Issue: Short Term Rentals**

**Category:** Classification and Rating

**Priority:** High

**Committee Focus:** Rental companies that had previously offered physical damage coverage to short term hired automobiles are no longer offering this coverage. Because physical damage-only coverage for Non-Ownership or Hired Automobiles is not currently available in the residual market, risks have found ways to obtain this coverage by entering into long term lease agreements and later amending those leases.

**Committee Action to Date:** The Commercial Automobile Committee has determined that the best approach to resolving this issue is through rating, and has requested that the JACLC and the AIB determine if a cancellation penalty, a minimum premium charge or some other approach should be evaluated and incorporated into the rating process.

**Status:** Under consideration by the AIB

**IV. Issue:** Ride Sharing

**Category:** Classification and Rating

**Priority:** High

**Committee Focus:** The Committee will consider whether coverage associated with various TNC services should be available in the commercial residual market.

**Committee Action to Date:** Ongoing discussions

**Status:** The Committee will continue its discussion at the meeting.

---

**V. Issue:** Consistent Application of Pollution Liability Coverage

**Category:** Servicing Carrier Consistency in Handling of Risks

**Priority:** High

**Committee Focus:** Determination of whether there is a need to develop standards for the application of pollution liability coverage.

**Committee Action to Date:** Agreement to add this item to the Market Issues List

**Status:** At a future meeting, the Committee will begin reviewing this item to determine what underwriting standards may be developed.

---

**VI. Issue:** Roll-Over of a Producer's Book and Required Forms

**Category:** Compliance

**Priority:** High

**Committee Focus:** Determination of whether reduced standards for required forms are appropriate during a producer book roll-over.

**Committee Action to Date:** None to date

**Status:** At a future meeting, the Committee will begin reviewing this item to determine what actions, if any, are appropriate for this issue.

---

**VII. Issue:** Producer Management

**Category:** Residual Market Growth/Compliance

**Priority:** Medium

**Committee Focus:** Consider opportunities to enhance producer oversight programs. Some suggestions emanating from the Annual Report recommendations include:

- Repercussions for agents that do not comply with CAR Rules relative to screening applicants
- Consider additional methods of communications with ERPs
- Consider the challenge of obtaining proper documentation from ERPs

**Committee Action to Date:** The Compliance and Operations Committee has referred the issue of non-compliance repercussions for failure to submit the required forms to the Commercial Auto Committee.

**Status:** At a future meeting, the Committee can begin discussing the various issues associated with producer oversight programs.

---

**VIII. Issue:** Gross Vehicle Weight Automobiles exceeding 10,000 Pounds

**Category:** Eligibility

**Priority:** Medium

**Committee Focus:** Automobiles with a gross vehicle weight exceeding 10,000 pounds and lacking an assigned VRG are not eligible for the MAIP, and thus have no home in the residual market. The Committee should discuss if coverage should be afforded in the commercial residual market.

**Committee Action to Date:** None

**Status:** Staff is in the process of reviewing the POLK files to identify vehicles exceeding 10,000 pounds not assigned a VRG by the AIB, in order to consider whether an opportunity exists to address residual market eligibility from this perspective.

---

**IX. Issue:** Movement of Buses from Policy to Policy

**Category:** Residual Market Growth – Eligibility for Placement in the MA Com Auto Residual Market

**Priority:** Medium

**Committee Focus:** Determination of whether there is an issue with buses moving from policy to policy to evade Servicing Carrier eligibility determinations.

**Committee Action to Date:** Agreement to add this item to the Market Issues List

**Status:** At a future meeting, the Committee will begin reviewing this item.

---

**X. Issue:** Miscellaneous Risk Classifications

**Category:** Classification and Rating

**Priority:** Medium

**Committee Focus:** Ensuring consistency among Servicing Carriers in the classification of certain risks

**Committee Action to Date:** None

**Status:** At a future meeting, the Committee will discuss whether the language in the rating manual should be clarified to ensure consistency among Servicing Carriers in classification of risks.

---

**XI. Issue:** Cost of Hire Coverage

**Category:** Classification and Rating

**Priority:** Medium

**Committee Focus:** Currently, Truckers Cost of Hire coverage is not mandatory in the residual market. It has been suggested that the risk be required to maintain the owner-operator on the policy for at least 6 months or be required to carry Trucker Cost of Hire coverage. The Committee should discuss if this coverage should be required.

**Committee Action to Date:** None

**Status:** To be determined

---

**XII. Issue:** Garage Keepers Coverage

**Category:** Servicing Carrier Consistency in Handling of Risks

**Committee Focus:** The Garage Keepers Coverage Form should be reviewed to ensure a consistent application among the Servicing Carriers
