**COMMERCIAL LINES NOTICE NO. 148**

Transportation Network Services Coverage (TNC) Filing

On September 15, 2021, CAR filed Commercial Automobile endorsement forms and modifications to the Commercial Automobile Insurance Manual with the Division of Insurance (SERFF filing CARI-132980903) with a proposed effective date of February 1, 2022. These proposed changes address eligibility for coverage in the commercial residual market for risks engaging in ride hailing, on-demand delivery of goods and car sharing services that occur through transportation network companies in a manner that is consistent with statutory requirements for TNC.

The changes propose the exclusion of TNC activities on all commercial automobiles, except those providing coverage for public automobile classifications, the exclusion of any vehicle sharing program in the residual market, and the use of the Other Insurance Condition for policies with public automobile classes.

Note that this filing is under review by the Division of Insurance and has not yet been approved.

Questions should be directed to Shannon Chiu at [schiu@commauto.com](mailto:schiu@commauto.com).
