Statistical Plan
Part III - General Reporting Requirements**

Section A – Premiums

1. REPORTING OF PREMIUMS

A separate premium record must be reported for each unique set of data elements contained in this Plan. Premiums are reported on statistical records by coverage (liability, personal injury protection (PIP) or no-fault, and physical damage). All bodily injury liability premium records must contain the combined premium of each separately developed bodily injury liability premium (i.e. compulsory bodily injury, optional bodily injury, medical payments, underinsured motorists and uninsured motorists). All other premium records (property damage liability, PIP (no-fault), other than collision and collision) should contain the individually developed premium.

Companies have the option to report combined bodily injury liability premiums apart from property damage liability premiums, on separate statistical records. Similarly, other than collision and collision premiums may be reported on separate statistical records if desired.

Premium adjustments due to the application of Retrospective Rating Plan D must be reported on separate statistical records using the applicable Classification Code and Coverage Code. Retrospective Rating Plans are available for use on voluntary policies only.

2. SINGLE LIMIT POLICIES

Single limit policies with separate premiums for bodily injury and property damage shall be reported using the appropriate Limits Identifier Code.

★ When reporting the bodily injury and property damage premium on one record, the combined single limit code shall be reported in the Bodily Injury Limits Code field with spaces or zeros in the Property Damage Limits Code field. Note also that if a property damage deductible has been offered, Property Damage Limits Code 08 may also be reported in the Property Damage Limits Code field. The corresponding bodily injury and property damage portions of the premium as determined by the single limit calculation shall then be reported in the appropriate Bodily Injury Premium Amount or Property Damage Premium Amount field.

When reporting bodily injury and property damage premium on two separate records, the records shall be reported in the following manner:

a. For the bodily injury record, the limit code shall be reported in the Bodily Injury Limits Code field with spaces or zeros in the Property Damage Limits field. The bodily injury portion of the premium as determined by the single limit calculation, shall be reported in the Bodily Injury Premium field with spaces or zeros in the Property Damage Premium field.

★ b. For the property damage record, the combined single limit code shall be reported in the Bodily Injury Limits field with spaces or zeros or Property Damage Limits Code 08 (indicating the existence of a property damage deductible) in the Property Damage Limits field. The Property Damage portion of the premium as determined by the single limit calculation, shall be reported in the Property Damage Premium field with spaces or zeros in the Bodily Injury Premium field.

For additional information relative to the single limit calculation, refer to the Massachusetts Commercial Automobile Insurance Manual.
