Commercial Automobile Insurance Manual

Secondary Classification - Special Industry Class.

1. These classification and codes, but not the rating factors, apply to zone rated automobiles.
2. Where more than one secondary rating factor applies, classify the risk using the secondary classification with the largest secondary adjustment unless 80% or more of the use is in a single secondary classification with a lower secondary adjustment. In that case, classify the risk using the secondary classification associated with the smaller adjustment.
